INPP meeting #5

November 4th, 2026

9:30 am – 2:30 pm (Swedish time)

Clinical Psychiatry at Karolinska Institutet
Stockholm, Sweden

9:30 – 9:40	**Opening remarks (10')** O Steffen (Head of International Relations, Inserm) N Jayaram-Lindström (Director of the Center for Psychiatry Research, Karolinska Institutet)
9:40 – 10:00	**Programme presentation: scientific programme and developments in the French precision psychiatry landscape (20')** PM Llorca and MH Soto (Inserm)

INPP Joint PhD Projects – Scientific progress and cross-country collaboration

PhD student-led presentations: 20' presentation + 10' discussion per project

10:00 – 10:30	**France/Sweden joint PhD project:** ***Severe sepsis and septic shock in patients with severe mental illness: a pharmacologic, immune and health service research approach*** L Boyer (PI, Inserm) / J Tiihonen (PI, Karolinska Institutet) / Y Brousse (PhD student)
10:30 – 11:00	**France/Norway joint PhD project:** ***A multidimensional study of NK cells in schizophrenia, bipolar disorder and autism spectrum disorders*** V Vieillard (PI, Inserm) / Ole Andreassen (PI, Oslo University) / M Apavou (PhD student)
11:00 – 11:30	**France/UK joint PhD project:** ***Psychiatric Immuno-genetic imaging*** N Harrison (PI, Cardiff University) / J Chabert (PhD student)
11:30 – 12:00	**France/Canada joint PhD project:** ***Impact of nitric oxide (NO) on mother-newborn brain synchrony: an electroencephalographic hyperscanning study*** R Jardri (PI, Inserm) / M Gautier-Martins (PhD student)
12:00 – 12:30	**Network coordination: budget distribution, next steps and discussion (30')** O Steffen (Inserm)
12:30 – 12:40	**Closing remarks (10')** PM Llorca, Programme Coordinator (Inserm)

Afternoon: visit of the Karolinska Institutet labs and facilities (Department of Physiology and Pharmacology - Applied Developmental Neurobiology, Carl Sellgren Research Group - Alessandra Rigamonti)

19:00 – 21 :00	**INPP network diner**

In partnership with PEPR PROPSY

With contributions from EU-MIND

French-Swedish Symposium

November 5th, 2026

9:30 am – 5:30 pm (Swedish time)

9:30 – 9:45	**Opening remarks (15')** O Steffen (Head of International Relations, Inserm) J Tiihonen (Professor, Department of Clinical Neuroscience, Karolinska Institutet)
9:45 – 10:15	**Keynote (30') –** *Artificial intelligence in psychiatric epidemiology* Johannes Lieslehto (Karolinska Institutet)

Coffee break (15') – 10:15–10:30

Population-scale precision psychiatry: real-world evidence and somatic trajectories

10:30 – 11:00	***Real-world effectiveness of pharmacological treatments of severe mental disorders (30')*** Jari Tiihonen (Karolinska Institutet)
11:00 – 11:10	***Presentation EU-MIND: Addressing the Physical Health Gap in Severe Mental Illness Across Europe (10')*** Laurent Boyer (CEReSS, AMU, Inserm)
11:10 – 11:30	***Mortality in Severe Mental Illness Across Europe (20')*** Heidi Taipale (Karolinska Institutet)
11h30-11h45	***From Evidence to Consensus: European Priorities for Integrated Physical and Mental Health Care (15')*** Esther Touitou / Coralie Gandré (IRDES)
11h45-12h00	**What Would People Pay for Better Integrated Care? Economic Value and Societal Preferences in Europe *(15')*** Sandrine Loubière / Éloi Fournier / Owen Taylor (CEReSS, AMU, Inserm)

Lunch break (60') – 12:00–13:00

Next-generation precision psychiatry – Early-career research showcase

13:00 – 13:15	**Bergný Armannsdottir** *"Psychotropic Medication Use and Risk of Sickness Absence in Bipolar Disorder"*
13:15 – 13:30	**Shokouh Arjmand** *"Estrogen signaling in glial synaptic phagocytosis: Relevance to disease"*
13:30 – 13:45	**Sohvi Ohtonen** XXXXXX
13:45 – 14:00	**PROPSY – Jan Berkehan Erkilic** *MetaboPsy – Immuno-metabolic abnormalities in major mood and psychotic disorders: a transdiagnostic dimension*
14:00 – 14:15	**PROPSY – Noé Igounenc** *TRANSPSY-S – Precision suicidology: normative modelling and large-scale validation in bipolar disorder and schizophrenia*
14:15 – 14:30	**PROPSY – Valeria Finelli** *INTRUDE – Personalized real-time fMRI neurofeedback for treatment-resistant auditory hallucinations in schizophrenia*
14:30 – 14:45	**PROPSY – Claire Altersitz** *From a 10-gene blood signature to targeted treatment in depressive disorders: preclinical validation of GRM7*
14:45 – 15:00	**PROPSY - Océane Dufrenne** *Cerebellar correlates of cognition using multimodal MRI in a transdiagnostic pediatric sample*
15 :00 – 15:30	**Joint discussion: From biomarkers to clinically actionable precision psychiatry (30')** *Moderator(s) to be confirmed*

Coffee break (20') – 15:00–15:20

In partnership with PEPR PROPSY

With contributions from EU-MIND

Proposed revised programme – 10 September 2026

INPP International Early-Career Forum

15:20 – 16:20	**Optional invited contributions from INPP international co-leads (60')** Up to four early-career researchers may be nominated (10' each). There is no requirement for each co-lead to nominate a speaker; any unused presentation time will be added to the discussion. *Discussion and cross-country exchange (minimum 20')*
16:20 – 17:00	**Round table: Building a shared INPP research agenda – cohorts, data, biomarkers and training (40')** INPP scientific co-leads and invited speakers
17:00 – 17:30	**Conclusions, next steps and closing remarks (30')** PM Llorca (INPP Scientific Coordination, Inserm) XX (XX, Karolinska Institutet)
